Review of Previous Meeting's Minutes:

School Attendance Policy:

We are tracking and hoping for 100% attendance in classes. The highest attendance rate with all students present in their classrooms is 47% of classes on a given day. We will continue our school-wide campaign for attendance. We will continue with outreach from teachers so families know what students will be missing when they are gone. There has been a lot of illness this year, as in past years. We know it's important to keep children home when they are sick. We really appreciate all of the efforts made to help us meet our attendance goals.

CSIP/LAND Trust

Change in Reading Goals for 2019/2020 academic year to track progress that is aligned to the State and District reporting system. Our goal is to maintain 95% of students at and above benchmark performance. Students below benchmark will be reported on the pathways of progress report to make sure they are making grade-level benchmark growth scores. Math progress will also be tracked the same way as reading to help us track student progress and make sure everyone makes good growth during the school year.

Cell Tower Budget

Budget approved and will remain as is with protected funds for teacher supplies as well as school technology funding.

Digital Citizenship Plan

Professional Development Information

There has been a very focused effort to implement the professional development we have participated in for the literacy block provided by Susan Henrie from the District's Instructional Supports Department with follow up coaching from our Achievement Coach, Tana Allred . Also,

a school-wide focus on instructional priorities for teacher clarity meaning the students are explicitly told the objective of the lesson and how they will know they have learned the concept. The research behind teacher clarity is significant for being an effective instructional practice.

Policy Review

Safety Drills:

Up to date! We are participating in the Great Utah Shake Out earthquake drill this month.
